Ali Nabeel Ali Mohammed Taleb
Software Engineer

+967 771750533 # https://www.linkedin.com/in/ali-alabsi-947285221 # alabsiali247@gmail.com

Software Engineer with 2 years of experience in designing and developing websites and applications. Proficient in full-stack development, with a strong focus on delivering high-quality code and scalable solutions. Proven track record of collaborating with functional teams to meet project goals and deadlines.

SKILLS

- Programming Languages: Java, Python, Dart , PHP , C#
- Web Development: HTML, CSS, Laravel , Bootstrap
- Databases: SQL Server, My SQl , Fire Base
- Frameworks:Laravel ,Bootstrap , Flutter
- Version Control: Git , Githup
- Software Tools: Android Studio, Visual Studio Code , Visual Studio , Anaconda , Pycharm
- Problem Solving: Algorithm design, debugging
- Team Collaboration: Strong communication and teamwork skills

PROFESSIONAL EXPERIENCE

Software Engineer January 2023 - Present

- Use Flutter to create dynamic user interfaces, improve user experience, and reduce bounce rates.
- Collaborate with a team to build multiple applications, including building an educational platform containing three applications, a note management application, and an account management application.
- Implement RESTful APIs to retrieve data efficiently, improve system performance, and scalability.
- Use Figma to create user interfaces.
- Conduct code reviews, identify areas for improvement, and ensure code quality and consistency.
- Solve critical production issues by analyzing and correcting code errors, reducing system downtime, and enhancing reliability.

EDUCATION

Bachelor of Science in Information Technology | National University | Yemen, Taiz | 2021 - 2024

- Related courses: Data Structures, Algorithmic Analysis, Software Engineering, Database Administration, Website Development (HTML, CSS, Laravel), Application Development, UI Design (Figma)

CERTIFICATIONS

- ICDL course.
- Diploma in English language.
- Diploma in Accounting.
- Course in Photoshop.
- Course in website development (online).
- Several courses in application development using flutter (State Management, Widget, API, Clean Code, Flutter With FireBase, Clean Architecture) (online).
- API Creation Basics Course With Laravel
